SUMMARY

I'm a Full Stack Web Developer who started coding 2 years ago. I've completed several projects and love building user-friendly websites. I'm looking for an internship to gain practical experience and improve my development skills.

SKILLS

- HTML**
- CSS**
- Tailwind Css**
- Java Script**
- React Js**
- ShadCN UI**
- Node js**
- Express Js**
- Mongo DB**
- Github**

PROJECTS

1. Case-Converter: A simple web tool that converts text into different cases like uppercase, lowercase, and title case. Built using React, Tailwind CSS, TypeScript, and ShadCN UI for a clean and responsive design.

2. Word-Counter: A web app that counts words and characters instantly while typing. Developed with React, Tailwind CSS, TypeScript, and ShadCN UI, focusing on speed and ease of use.

3. Student-Management-System: A frontend project to manage student records using local storage with add, edit, and delete options. Created with React, Tailwind CSS, TypeScript, and ShadCN UI to provide a simple and efficient interface.

4. Task-Management-App: A full-stack project to manage tasks with features for adding, updating, and deleting tasks. Built using React, TypeScript, Tailwind CSS, and ShadCN UI on the frontend, with Node.js, Express.js, and Mongo DB on the backend.
